• Master of Science with a major in Innovation and Global Sustainable Development
• Double degree programme
• 2 years, full-time, 120 ECTS credits
• School of Economics and Management
• Application deadline: January 2020
• Programme start: August 2020

Programme overview
In this programme, you will be provided with the theory, concepts and methods to analyse and better understand the role of innovation in economic, social and sustainable development from a historical perspective. The unique focus on spatial dynamics/economic geography enables you to gain insights on how the areas of development and innovation interplay, evolve and shape the economy in different regions and periods of time.

Innovation is fundamental in the process of economic, social and environmentally sustainable development. You will then be better equipped to understand and analyse the grand challenges such as; climate change, food security and poverty alleviation. Innovation is also about the diffusion and incremental changes that yield economic, social and environmental benefits for society. In this programme, you will learn the dynamics of both macro and micro economics of innovation.

The programme draws on frontline research in the field of economic geography, economics of innovation and economic history. Some of the key topics covered are innovation for sustainable development, economics of innovation and energy transitions.

Double degree option with Aalborg University
Students enrolled in this programme will have an opportunity to compete for acceptance to a double degree with Aalborg University. Both Lund University and Aalborg University excel in research on innovation and development worldwide.

Programme modules/courses
**CORE COURSES (7.5 CREDITS EACH):** Development of Emerging Economies; Econometrics I; Economic Growth over Time and Space; Economics of Innovation; Energy, Transitions, Innovation and Trade; Innovation for Sustainable Development; Research Design.

**ELECTIVES (7.5 CREDITS EACH):** Elective courses that can primarily be included in the degree (course details and timing will be laid out in the introductory week): Advanced Analysis of Economic Change; Applied Time Series Analysis; China and the Asia Pacific Economy; Geographical Information Systems for the Social Sciences; Geographies of Economies: Transforming Places, People and Production; Geographies of Economies: Urban and Regional Planning; Globalisation of Innovation; Institutions, Economic Growth, and Equity; Internship; Population and Living Standards; The global Economy and Long-term Economic Growth.

The programme ends with a degree project (15 credits).

Career prospects
With a MSc in Innovation and Global Sustainable Development, you will qualify for any profession that requires capability of intellectual judgement, evaluation and analysis of economic facts and ideas, and good communication skills. This programme will give you plenty of career opportunities both at national and international institutions such as the EU, OECD, ILO, World Bank, UNESCO, WTO, NGOs, governments and central banks, think tanks, multinational companies and consulting firms. Graduates are well-equipped for analytical and planning work in private sector, government and international organisations, as well as for work in non-governmental organisations, consultancy and research.

The programme also provides excellent preparation for PhD studies.

Entry requirements and how to apply
**ENTRY REQUIREMENTS**
An undergraduate degree (BA/BSc) with at least 60 ECTS credits in business administration, economics, economic history, history, social and economic geography or statistics, or the equivalent. English Level 6 (equivalent to IELTS 6.5, TOEFL 90). See www.lunduniversity.lu.se for more information on English levels.

“The programme has introduced me to classmates with the same interest. I am surrounded by students from all over the world who want to discuss the complexity of incorporating sustainability in economic development. In a small class of only 20 students, we represent nations from all over the world, and we value our different experiences and knowledge.”

Frida Zahlander from Sweden
HOW TO APPLY
1. Apply online: Go to www.lunduniversity.lu.se/innovation-global-development. Click on “Apply” and follow the instructions for the online application at the Swedish national application website www.universityadmissions.se. Rank the chosen programmes in order of preference.
2. Submit your supporting documents:
   • General supporting documents: Check what documents you need to submit (i.e. official transcripts, degree diploma/proof of expected graduation, translations, proof of English, passport) and how you need to submit them at www.universityadmissions.se
   • Programme-specific supporting documents: When applying for the Master’s in Innovation and Global Sustainable Development, you must also submit a statement of purpose when you apply to this programme. For further instructions, see www.lusem.lu.se/supporting-documents
3. Pay the application fee (when applicable).

SELECTION CRITERIA/ADDITIONAL INFO
We normally look for undergraduates with excellent results from an internationally recognised university. When assessing your academic record, we take into account your grade average and other merits such as your statement of purpose.

Undergraduates are recommended to have a minimum average grade equivalent to 3.0 out of 4, in cumulated grade point average (CGPA), C in the ECTS grading scale, and B in the American grading scale.

Strong English language communication skills are crucial to gain the full benefit of the programme.

TUITION FEES
There are no tuition fees for EU/EEA citizens. For non-EU/EEA citizens, the tuition fee for this programme is SEK 120 000 per year. See www.lunduniversity.lu.se for details on tuition fees.

About the School of Economics and Management
Graduates from the School of Economics and Management are well prepared to be leaders of tomorrow. The commitment to making a difference drives the School’s learning culture in its focus on student learning, innovation and engagement – all in an international atmosphere. We aim at supporting our students in their learning journeys’ towards being capable of tackling global challenges. We do this via a high degree of case-based learning, inviting our students to take part in experiential learning in a way that connects theories with practice. We have a highly qualified faculty with an international outlook, and innovative pedagogical approaches, making sure that our teaching is state-of-the art. All our programmes reflect the Scandinavian flair on ethics and sustainability, providing a solid foundation for future career ambitions. At LUSEM you learn both to make a difference, and to make it happen!

About Lund University
Lund University was founded in 1666 and is repeatedly ranked among the world’s top 100 universities. The University has 40 000 students and 7 600 staff based in Lund, Helsingborg and Malmö. We are united in our efforts to understand, explain and improve our world and the human condition.
